Ecla~Cell *duo* cellulite treatment

Ecla~Cell *duo*

- orange peel to peachy smooth

Ecla~Cell *duo* combines an intensive draining lotion and toning cream expertly formulated to firm & tone the skin and reduce the appearance of cellulite.

Cellulite, more commonly referred to as 'orange peel', affects up to 95% of all women. It is the word used to describe the fat deposits under the skin that outwardly give an uneven 'dimpling' or 'orange peel' appearance.

There are a number of factors which contribute to cellulite. These include genetics, hormones, stress, smoking, inactive lifestyle and obesity. These factors influence how your body's circulation and lymph systems work. Any restrictions or impairments to these systems allow fat cells to grow in size and become trapped resulting in an uneven distribution of fat - cellulite!

Ecla~Cell *duo*'s powerful combination pack contains a synergy of essential plant extracts which intensify circulation, eliminating fluids and clinically proven xanthine derivatives which reduce fatty tissue.

Used morning and night over a two month period **Ecla~Cell *duo*** can;

Directions for Use

For both morning and evening applications it is recommended that you massage thoroughly into your skin to help enhance the removal of fluids.

Daily morning use

Apply **Ecla~Cell *duo*** draining lotion to cleansed skin each morning on the areas to be treated. Massage into skin until totally absorbed.

Daily evening use

Apply **Ecla~Cell *duo*** toning cream each evening on the areas to be treated. Massage into skin until totally absorbed.
